

STRATEGIES FOR RECOGNIZING AND NEUTRALIZING IMPLICIT BIAS

Presented by:

Laine Cardarella
Federal Public Defender,
Western District of Missouri

Implicit bias refers to the attitudes or stereotypes that can influence our understanding, actions, and decisions in an unconscious manner. Everyone has implicit biases. During this CLE we will try to identify the biases—especially racial biases--that we have, and those that other players in the criminal justice system may have. We will talk about why identifying and talking about racial bias is important when defending clients charged with federal crimes. And we will brainstorm ideas to minimize and neutralize biases in ourselves and others.
